THE APPRAISAL OF CONTENT IS TENTATIVE.  
(FOR KEY SEE REVERSE)

25X1

1. The submarines ZBIK and RYS carry eight torpedoes and fifty mines. The charging of torpedoes is carried out under a pressure of 200 kg. per square centimeter.
2. Polish navy MTBs (kutry torpedowe) have two aircraft engines each, and can develop a speed of 28 knots per hour. They are equipped with one or two-barreled torpedo tubes fixed permanently in the bows and they discharge torpedoes only on a line coincidental with the ship's course. Side discharge is prohibited since the MTBs might disintegrate from the impact (sic). MTBs only carry two torpedoes.
